# Methodology

---

GQR conducted a 20-minute mixed mode survey among 800 registered Jewish voters in New York City from July 15 – 24, 2025. Live phone interviews made up half the respondents, text-to-web made up the other half. Respondents were contacted using Catalist voter file. The sample was drawn randomly from records modeled to be Jewish voters. The sample was supplemented by records drawn randomly from zip codes with high density of Jewish votes.

The data is subject to a margin of error of +/- 3.46 percentage points at the 95 percent confidence interval; the margin of error is higher among subgroups.

The data are weighted to ensure the sample's regional, age, and gender composition reflects that of registered Jewish voters in New York City and comport with previous surveys in this community.

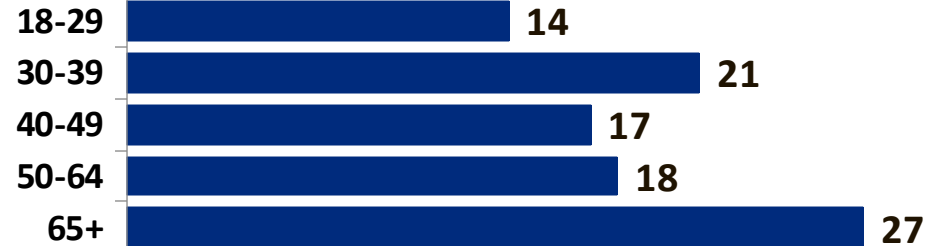

In this report, results are expressed as percentages unless otherwise noted. Results may not add to 100% due to rounding or multiple responses. Net results cited in the text may not exactly match individual results shown in the charts due to rounding.

# Most Jewish voters do not dismiss Mamdani's record; most Mamdani voters do

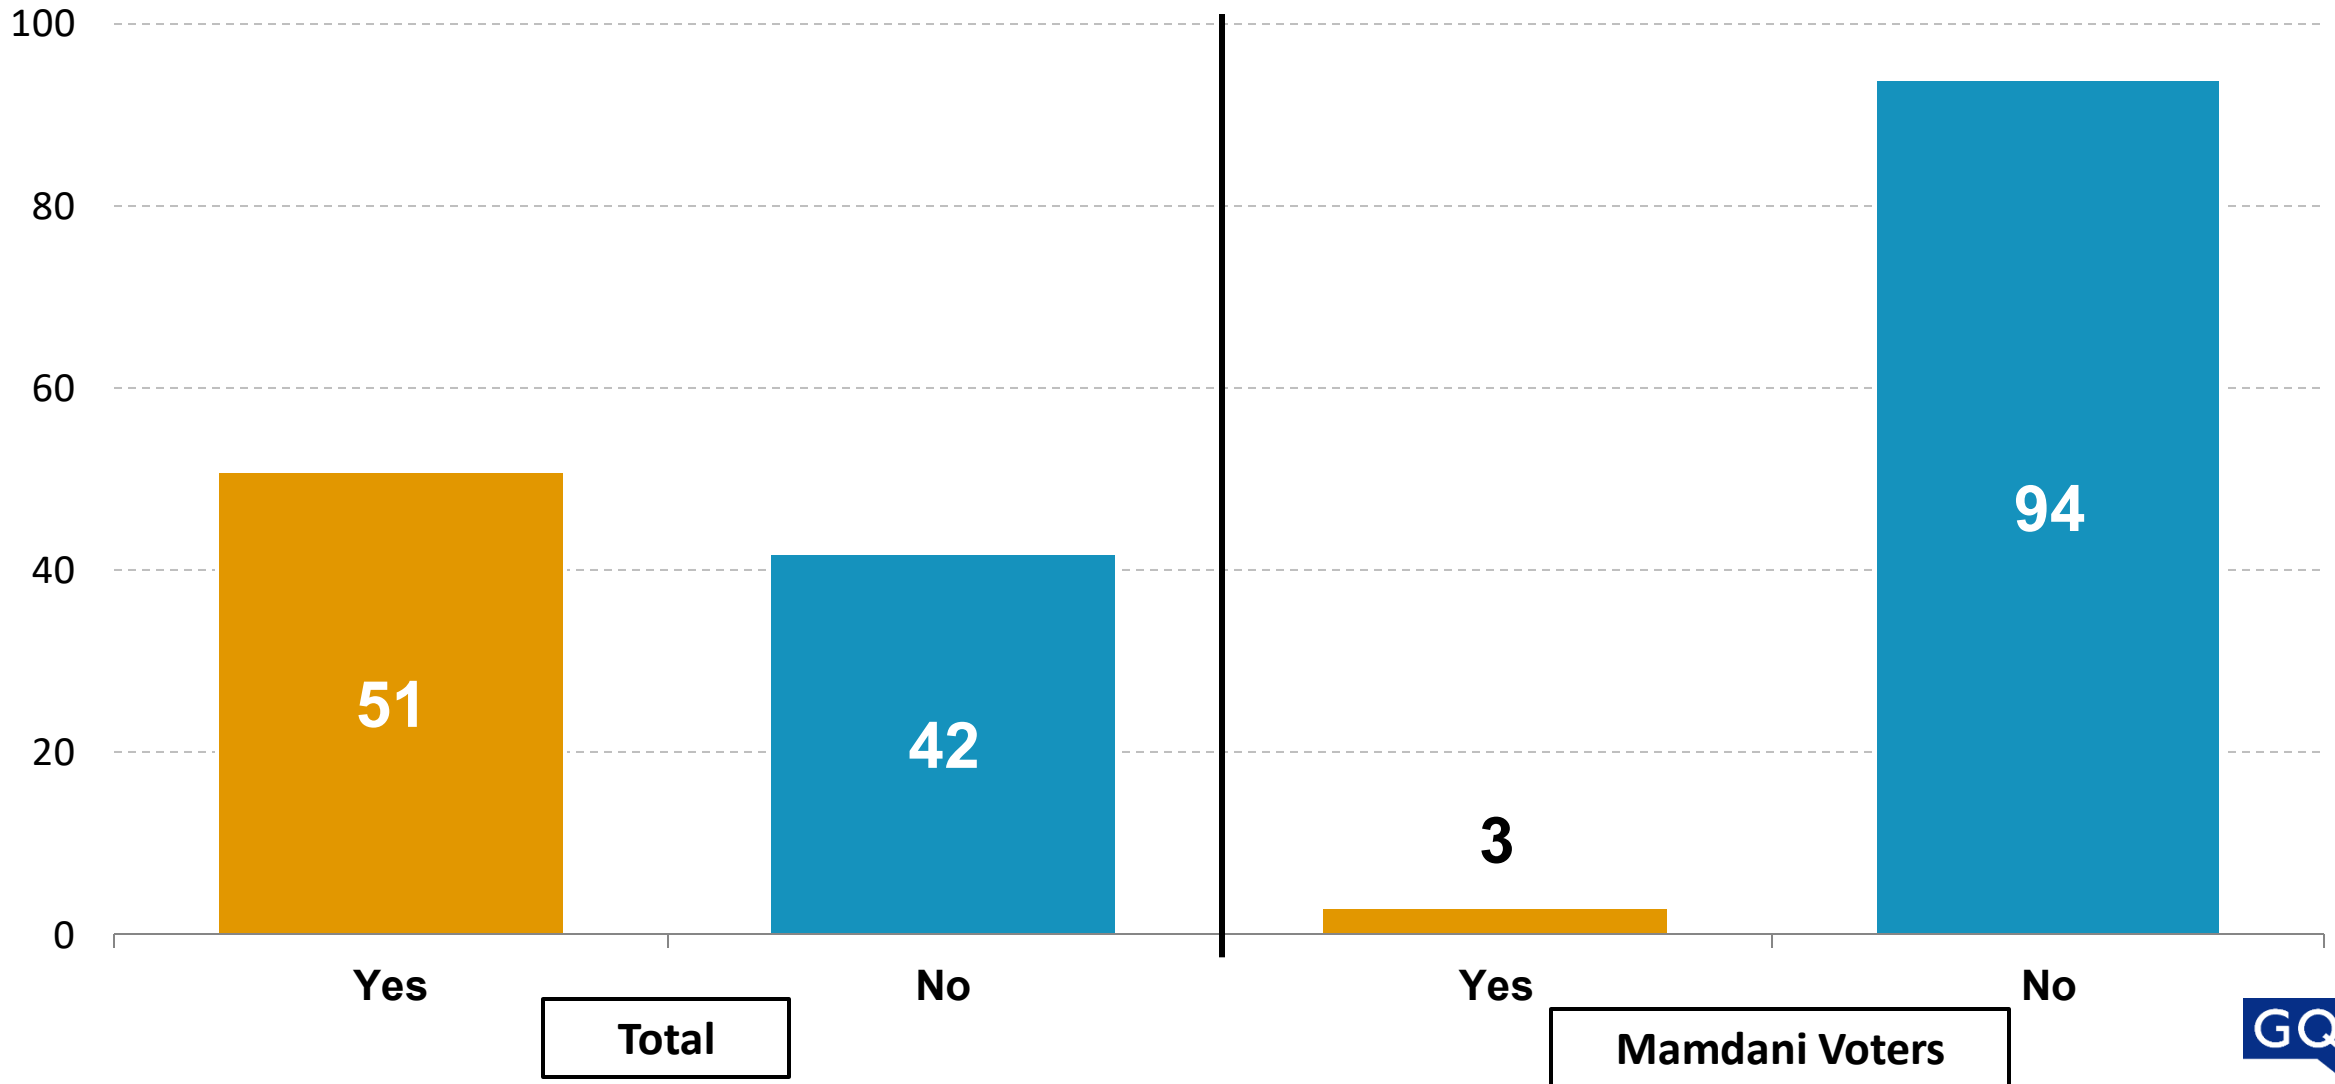

I am going to read you a statement about Zohran Mamdani. After I read this statement, please tell me whether this statement raises very serious concerns in your mind about Zohran Mamdani, somewhat serious concerns, not very serious concerns or no concerns at all in your mind about Zohran Mamdani.

Zohran Mamdani has been a leader in the boycott, divest and sanction or B-D-S movement against Israel and does not support the right of Israel to exist as a Jewish state. He will not say that the phrase "globalize the intifada" is antisemitic. In the New York State Assembly, Mamdani proposed legislation which would have prevented Jewish charities in America from working with charities in Israel.
